

Seeking legal help for a victim of bullying when he was a distinguished award-winning Judge from spring 2017 to spring 2023

Seeking a good lawyer for the following 3 cases:

1. The victimisations suffered from spring 2017 to spring 2023 by the whistle-blower when he was a Magistrates' Court Judge (also known as Magistrate or Justice of the Peace)
2. The victimisations from NHS suffered by the former Judge in his capacity as a Governor of 20 major NHS Hospitals and 5 Schools in London (spanning over 20 years)
3. The victimisation from 5 organisations (police, NHS, Ministry of Justice, local authority and housing association) suffered by the former Judge in his capacity as Residents Association Chairman.

If you only have capacity to hep 1 case, then the first case is most urgent as the most serious victimisation was publishing the former Judge's personal details on the internet, which put his life in danger.

The former Judge kept 20 lever arch files of hard evidence. After you replied, we will email you a summary of each case.

In terms of funding, the victimisation left the former Judge in profound poverty but here are 3 sources of funding:

1. A legal charity called Crowd Justice said they can help with crowd funding if a lawyer would endorse the case with an email
2. The former Judge is now in absolute poverty and is automatically entitled to Legal Aid for judicial reviews
3. CFA (no win no fee) in which the lawyer gets 50% of the 8-figure sum compensation

Can you forward this email to the lawyers and ask them to email us to set up an initial meeting with the former Judge (funded by one of the above sources). He lives in London but this case can be handled by lawyers anywhere within the UK as technology such as Skype and email can overcome the hurdles of distance.
