

## **Seeking good lawyers for the following 2 tasks:**

1. Endorse a crowdfunding profile at Crowd Justice for a whistle blowing ex-judge who has governed 20 major NHS hospitals, 5 schools and 3 voluntary organisations in London (**you need to be a practising solicitor or direct access barrister in the UK**)
2. Counter sign the appeal to the European Court of Justice for a whistle blowing ex-judge who has governed 20 major NHS hospitals, 5 schools and 3 voluntary organisations in London (**you need to be a registered lawyer with representation rights in the EU Court of Justice**)

**Law academics who helped the case advised the above mentioned 2 tasks are suitable for good lawyers with a heart of gold** but not suitable for lawyers seeking one of the following:

- **Fortune** – the victim now lives below poverty line and has no assets or savings
- **Fame** – the victim is not famous or high ranking (which is why mainstream press & media refused to publish the story), so fame is not a reward you will get for helping

There's nothing to be gained for helping a middle-aged disabled victim in distress, so only offer your help if it's genuine and without ulterior motives.

### **Communication:**

Genuine supporters can send a short email with CV to the email address below, with the words "Pro Bono Help" in the subject box (the email will be checked by the victim's supporters and then forwarded to the victim's family)
